

## RUPTURE WITH THE VATICAN

French Ambassador Leaves Rome For Indefinite Period.

## POPE PIUS GREATLY WORRIED

PAPAL SECRETARY SEEMS TO HAVE BLUNDERED.

Rome, May 21.—M. Nisard, French ambassador to the vatican, acting under instructions from Paris, left Rome tonight for an unlimited vacation as a protest against what France regards as the indecise attitude of the vatican in compiling two different notes concerning the visit of President Loubet to Rome.

The pope is greatly worried over the conflict between the vatican and France. Today his holiness suspended public conferences and conferred at length with the papal secretary of state, Cardinal Merry del Val, who stated to him what M. Nisard had said. He said that France had misunderstood his intention and that he had omitted the phrase regarding the recall of the ambassador. He said that the government was not in that in which he expressed the determination of the papacy to prevent Catholic sovereigns from coming to Rome as guests of the vatican.

M. Nisard expressed to the cardinal his regret that he was unable to discuss the matter, the instructions from his government being to leave Rome when he had ascertained officially the differences between the note to France and those to other powers.

Active inquiries are making to find out how L'Humanite received the note. It is generally believed that German Socialists succeeded in securing the text of the note from the Prussian government and communicated it to their friends in the French socialist ranks.

Among the demands there is considerable feeling against the papal secretary and condemnation is expressed of the way in which he has brought about the rupture with France.

Recall of Nisard Strengthens the Present Government.

Paris, May 21.—The formal announcement of the recall of M. Nisard, French ambassador to the Holy See, was made this evening and the following official statement was communicated to the press:

"Ambassador Nisard is recalled and the secretary of state is authorized to take charge of affairs during his absence. The ambassador will leave Rome this evening."

Definite official action was not taken until late in the day. Prior to this M. Nisard had been directed to endeavor to secure from the vatican an informal information regarding the step forward to the powers. It is understood that the interview between the ambassador and the papal authorities was not satisfactory, not giving complete information in the matter and, therefore, the recall was decided upon. It had been decided that the recall of M. Nisard would be made on Tuesday, when Minister Delcasse would communicate to the ministers council the result of the ambassador's conference with the secretary of state.

The determination to recall M. Nisard without further delay is taken, however, to indicate the unsatisfactory result of the interview.

It is learned in official quarters that the government's plans, as carefully outlined, do not anticipate the denunciation of the concordat, but rather the next step beyond the recall of M. Nisard. The government's programme, it is said, which is from an authoritative source, is as follows:

"M. Nisard's leave will be indefinite, but no further steps are contemplated at present, unless parliament directs that further action be taken. Efforts are being made to induce the premier to follow up the ambassador's recall by denunciation of the concordat, but M. Combes does not wish to go to that extreme. M. Juarez, the socialist leader, who originated the present agitation, also opposes a denunciation of the concordat, preferring the theory that it is preferable for the government to retain administrative control of the clergy instead of giving them complete independence. The result of the rupture with the vatican promises to materially strengthen M. Combes' administration, as bringing support to any element in the government opposing him. The opposition leaders, MM. Ribot and Lasies, will address the chamber in support of the government's course and express regret at the vatican's protesting to the powers President Loubet's visit to the quinal."

## PERDICARIS WILL SOON BE SET AT LIBERTY

Washington, May 21.—A cablegram was received at the state department addressed to Acting Secretary Loomis by J. W. S. Langerman, the special commissioner of the sultan of Morocco, recently in London on his return to Morocco. The message was as follows:

"Know well Perdicaris. Also Raisul. If matters not satisfactory before arrival will arrange friendly meeting without friction. Am leaving in the morning for Gibraltar."

Mr. Langerman's relation with the sultan is very intimate and there is reason to believe that he may be able to accomplish something in securing release of Perdicaris if that has not been accomplished through Consul General Gummere's efforts.

## OHIO SAVINGS BANK FORCED TO THE WALL

Newark, O., May 21.—The Newark Savings bank did not open its doors today and the court has appointed a receiver.

The bank has thousands of depositors from the working people here and there is great excitement. Discrepancies are said to have been discovered in the books of one of the officers.

Cashier Lindeffert went to Columbus today to meet a committee. The shortage is said to be in the neighborhood of \$50,000.

## COLUMBUS, O., MAY 21.—CASHIER LINDEFFERT WAS FOUND AT THE PARK HOTEL

Columbus, O., May 21.—Cashier Lindeffert was found at the Park Hotel in this city today. He refused to be seen, but he said the failure was due to President L. P. Schaue refusing to sign notes for a temporary loan.

## WAVE OF WATER RUSHED DOWN

People of Cheyenne Had No Warning of Coming Torrent.

## TWO CHILDREN ARE DEAD

HAVOC CAUSED BY CLODBURST IN COLORADO.

Cheyenne, Wyo., May 21.—Only two lives were lost in the flood which swept through West and South Cheyenne last night, the victims being the Clayton boys, 4 and 2 years old. Others who were missing were found today.

Ranchmen living along Crow creek report that none of their families were lost, but they were drowned out and their property damaged thousands of dollars. The damage done is estimated at \$50,000.

It is feared there have been other casualties as a number of persons are still missing. The dead were asleep in their beds when the water came. Rain had been falling for twenty-four hours when the clodburst occurred at 4 o'clock. Crow creek had been running full and when the clodburst took place a wall of water, six feet high, came down the valley, sweeping ranch buildings, fences, corrals, haystacks and other movable articles in its path. Five hundred people living in the lowlands along the creek in West Cheyenne were given no warning whatever until the wall of water was upon them. Many had retired for the night and without their clothing. A general alarm was sounded and a number of rescuers on horses and in boats were soon at work. In South Cheyenne 200 and in those in the flooded district and a number are missing.

Serious washouts have occurred south, east and west of Cheyenne, and traffic on the Union Pacific is seriously impeded. Telegraph and telephone lines are also down. The rainstorm was the worst known in many years.

## Flood at Greeley.

Greeley, Colo., May 21.—The flood in the Cache la Poudre river caused by a waterspout in the foothills of the Rockies, reached Greeley early today. The river is running bankfull and is three feet higher than ever before since the levee was established. All bridges north of this place have been washed out. Strenuous efforts are being made to save the Cache la Poudre levee. No trains have arrived since yesterday. A close watch is being kept on the levee, but no bodies have yet been seen in the flood. The water is carrying many sheep, belonging to the Warren Livestock company, were drowned in the lower district.

The Weld County house, situated in the bottom, is surrounded by water. Considerable difficulty is experienced in moving the water out of the city pumping plant.

Much debris of all kinds is floating on surface of the water, the river being very turbulent, and carrying everything before it.

City Marshal E. F. Camp took the precaution to notify all people living along the lowlands of the coming of the flood. Had this not been done, a large number of lives would have been lost. It is reported that reservoir No. 2, containing 400,000 cubic feet of water, has gone out and that the water is now rushing down on New Windsor and a portion of Greeley. The loss in this section will reach \$100,000.

A Mexican came into town tonight and reported that two of his companions were in the brush near the town. He said that the brush was a mile east of town. A rescue party was formed and the men were rescued at 9 o'clock tonight by means of ropes.

## Loss Will Reach \$2,000,000.

Fort Collins, Colo., May 21.—Estimates of the damage caused by the flood in the Cache la Poudre valley last night run from \$1,000,000 upwards. The headwaters of all the irrigating ditches in the valley are now under water. Embankments destroyed. Unless repairs can be made in time to save water from irrigating this year the loss will be near \$2,000,000.

One hundred and fifty houses in the Russian settlement at the sugar factory north of this town were destroyed. So far as ascertained only one life was lost here. The body of a Russian named Strauf was found today tangled in a wire fence. Bridges were washed out between Livermore and Fort Collins and traffic is suspended. The flood receded rapidly at this point today, but it is believed that several of the levees are unsafe and should any of these go out much further damage will ensue.

## U. OF U. ALUMNI BANQUET.

Will be held in "Varsity Hall" on May 31.

The annual alumni banquet of the University of Utah will be held in the varsity assembly hall the night of May 31. There will be music, toasts and a grand ball.

The secretary stated yesterday that as the roll is incomplete and many students have changed their addresses, and in some cases their names, that it will be impossible to get an invitation to all. The secretary's invitation is extended to the alumni.

The officers of the association are: President, Judge Thomas Lewis; vice president, George H. Wright; secretary and treasurer, George G. Morris; assistant secretary, Edna H. Hagg.

The business committee consists of: H. J. Faust, Elizabeth S. Wilcox, Lula Van Hils, Henry J. Wallace, Mary E. Conelly, Sarah E. Karick and Ray Van Hils.

A business meeting will be held Saturday night, May 28, at which all are requested to be present, including this year's graduates.

## RUSSIA WILL LET THE LASCARS GO

St. Petersburg, May 21.—(6:35 p. m.)—The four Lascars recently arrested at Cronstadt on British and German steamers on suspicion of being Japanese spies, are ready to leave, when the prisoners will be released and sent on board. One of the men says he is a Russian and claims American citizenship. As soon as he learned of the arrest, Ambassador McCormick, who is in charge of the Japanese in this country, advised the government of the subject and was informed that the men would be released.

## FAREWELL TO POTTS.

Berlin, May 21.—Lieutenant Commander Potts, U. S. Navy, attached to the United States naval attaché at Berlin, Vienna and Rome, has received a cablegram from Washington notifying him of his detachment, and ordering him to join the Brooklyn, the flagship of the Southern Atlantic squadron, at Gibraltar. He will leave Berlin May 28. Ambassador Tower will give him a farewell dinner the evening previous to his departure.

## ARGUMENTS HEARD ON PETITION OF HARRIMAN AND PIERCE

Newark, N. J., May 21.—The hearing of arguments on the petitions of E. H. Harriman and Winslow S. Pierce for an injunction restraining the distribution of assets of the Northern Securities company, under the announced plan of Judge Bradford today, was the opening of court it was decided by Judge Bradford that the arguments of E. H. Harriman and Winslow S. Pierce, representing the Oregon Short Line bondholders, would be heard here today and that Messrs. Guthrie and Johnson would be heard on Monday at Trenton.

Mr. Root resumed his argument begun yesterday. He maintained that the decision of the courts did not adjudicate the plaintiffs to be the legal owners of the stock in question, and that the United States circuit court, sitting at St. Paul had sustained his view. The equity in the property held by people who had bought in the open market, he argued, must prevail against the claim of counsel for Harriman and Pierce, and it would be entirely unjust to these people who were deprived of their rightful share in all the stocks. The extra \$100,000 which would accrue to the Harriman interests, he insisted, would be a disadvantage to the other stockholders.

Judge Bradford asked: "If the securities company did not acquire equitable ownership of the shares, how could the company be justified in treating that as its property which was not its property?" There seems to be a paradox in the situation.

Mr. Root replied: "The opinion of the securities company is that the securities company as owner of the stock in question. Also in Justice Harlan's opinion it is set forth that the securities company was the owner of the stock, thus approving the opinion of the circuit court. It is so described in Justice Harlan's opinion as a holding corporation and trustee and custodian having title to represent the combination. There can be no question of the title of the securities company. The two parties was to confer title upon the company. Whatever the rights may be of those joining in the combination, the securities company does not propose to interfere with them."

## EXPLORERS ARRIVE AT DANISH COLONY AFTER MUCH SUFFERING

Copenhagen, May 21.—The Danish scientific expedition to Greenland under the leadership of Erikson, has arrived at the Danish colony at Nuuk after much hardship and suffering. The expedition reported that they found the whaling ship Gjova, with Captain Amundsen and his crew, who were on a pole expedition on board, at Dalsrym. All the members of both expeditions are well.

According to a dispatch from Dundee on Nov. 16 last, whalers who had just returned there reported that they had found the Danish Erikson expedition on Saunders Island in a pitiable condition. The explorers, it was added, in the company of Eskimaux, were living in a tattered tent and their food was almost exhausted, except a supply of eggs from the island. They had only one gun and had abandoned it. The whalers reported that the Erikson expedition had been driven north by bad weather and had been driven to the island by the Eskimaux. The whalers left with supplies and materials to build a new boat.

The Amundsen expedition sailed from Christiania June 17, 1903, according to a dispatch from Nuuk. The expedition was led by Erikson, who was characterized by Professor Schmidt of Berlin as undertaking the most important task in the domain of terrestrial magnetism. It was planned to take a route never before attempted.

## "PLAUDITS AND PLATITUDES AND PIE CRUSTS AND PUDDING"

St. Louis, May 21.—Before the press section of the biennial convention of the General Federation of Women's clubs today, held in the Grange hall, were not for the women's newspaper were not for the women's newspaper were not for the women's newspaper.

"No large metropolitan newspaper can live without the support of women," he said. "The women's newspaper is a necessity for the women's newspaper. The women's newspaper is a necessity for the women's newspaper. The women's newspaper is a necessity for the women's newspaper."

## ONE THOUSAND JAPANESE SUNK OR FOUND

(Continued from Page 1.)

The fact that it explained where they were located. A number of unexploded mines lie in the same vicinity and it is deemed wise to describe their location. Each mine contained a ton of dynamite and a quantity of other explosives. The mines were found in a field of about ten acres. The mines were found in a field of about ten acres. The mines were found in a field of about ten acres.

## KEEPING SHARP WATCH.

Russian Report on the Movements of the Japanese.

St. Petersburg, May 21.—The general staff has received from Lieutenant General Skrydloff, under date of today, the following:

"During the last few days our cavalry has discovered movements of Japanese detachments on the Liao Yang main road northeast of Feng Wang Cheng, toward Chantins and beyond. Altogether more than a regiment was seen in this direction with artillery. On the main road from Liao Yang to Saljanan are a battalion of infantry and a regiment of cavalry. Their advance guards being in the pass of Changshan."

## HUMPHREYS'

HOMOEOPATHIC SPECIFIC cure by acting directly on the sick parts without disturbing the rest of the system.
